

Two Important Amendments to the Restriction Act.

Congressman Morrow has embodied in the amendment which he will offer to the Restriction Act a clause that no Chinese who resided in the United States prior to the passage of the Restriction Act shall be permitted to return on that plea after a date to be fixed by Congress. It is understood Congress will be asked to make the time July 31, 1886. It is also proposed to ask Congress to pass an amendment to the Restriction Act that no vessel shall bring more than one Chinaman for every fifty tons measurement. This would only give eighty Chinese passengers to a vessel of 4,000 tons measurement. Suppose the City of Peking to measure 5,000 tons, her owners will only be allowed to bring 100 Chinamen, instead of 1,000 as she has frequently done in the past.

A Flimsy Restriction Act.

The customs report just issued shows that since the passage of the Chinese Restriction Act in 1882 over 18,000 Chinese have landed at San Francisco. A still more extraordinary fact is that out of this number nearly 4,000 have been permitted to land without the necessary customs certificates prescribed by the act of Congress.

To Be Tried Anew.

The California Supreme Court has rendered a decision in the Sharon divorce case, holding that the bond on appeal from the judgment of Judge Sullivan is sufficient. This practically means that the Supreme Court will try anew the Sharon divorce case.

Governor Squire, of Washington Territory, in his report to Secretary Lamar, gives the population of the Territory at 129,438, an increase of 30,930 in two years. The assessed value of the property is \$50,484,437 and there are yet 23,000,000 acres of public land unsurveyed, of which 16,000,000 are good agricultural and timber land. The Governor states that by the Territorial census of 1885 there were 3,076 Chinese residents in the Territory. He says the recent attacks on the Chinese in that Territory have grown out of the fact that Chinamen are continually coming across the border from British Columbia, in violation of the Restriction Act. The Governor suggests an increased customs force on the border, a revision or repeal of the Burlingame treaty as necessary for the tranquility of the Territory.

The World's special from Washington says: The Democratic Senators continue to object to the election of anybody to the Presidency of the Senate except Senator Edmunds. They say that either Logan or Sherman would be very objectionable, on account of their partisan and sectional prejudices. The Democrats will give their complimentary nomination to Senator Harris, of Tennessee. The fact that the Senate can elect whom it pleases President pro tem, leaves it in the power of the Republican Senators to elect Senator Logan before he is sworn in, if they are so inclined. Senator Cockrell, of Missouri, who is quite an authority upon the subject of rules, has looked up the point and is clearly of the opinion that this can be done.

An old Veteran.

Yesterday Daniel Pine, father of Deputy Sheriff D. H. Pine, who lives at Paw Paw Grove, Lee county, Illinois, was 99 years of age, and as active and vigorous as most men at 65. Mr. Pine is one of the few surviving veterans of the war of 1812.

make a decision regarding mineral lands which will probably cause considerable commotion on this coast. In the original survey of lands, certain tracts, on superficial examination, were designated on the maps as mineral, and were consequently withheld from occupancy by agriculturalists, except where the non-mineral character was proved. A very large amount of so-called mineral land was shown to be non-mineral, and settlers were permitted to establish homes upon it. It is understood that now the department at Washington proposes to consider the original report final, and to admit no proof of the non-mineral character of the lands, as has hitherto been the rule. The application of the new principle will apply to lands now occupied by actual settlers, and also to lands within the railroad grants.

Pute Names of Lakes.

Don De Quille, says in the Carson Free Lance: "The Pute name of Pyramid Lake is Kou-ee-wa Pahneut." "Pah-neut" is the Pute word for lake, and "Kou-ee-wa" is the name of a peculiar fish—kind of ugly big-headed sucker found nowhere else in the world (so far as heard from) but in Pyramid Lake. All lakes are named after the kinds of fish peculiar to or most plentiful in them. Thus Walker Lake is called Auki Pahneut, or trout lake, and the Sink of the Carson is called Toy-er-Pahneut, or the minnow lake, on account of the abundance of small fishes found in its shallows. "Pah" is the Pute word for water, and "neut" of a pond or basin.

Cassidy for Senator.

A Fresno correspondent of our evening cotem. says:

Nevada's ex-member of Congress, Hon. G. W. Cassidy, U. S. Bank Commissioner, paid us a visit the other day in the line of his duties, and found many old friends and acquaintances here, and could have been entertained for some days by them, had he allowed himself to remain among us. The man who cannot like Cassidy has no taste for one of the most social of men and one who is as clear headed as social, and if the Nevada Democracy have any sense at all they will make him if possible, their next Senator in place of him who so ably misrepresents them.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-nw-lvr

is a wealth of promise in timely and copious showers, as they cause trification of the pasturage so necessary to the maintenance of the herds of cattle and sheep that constitute an important item in the wealth of the State, and prepare the way for a bounteous wheat crop, which will give more of a harvest of gold than the millions of precious metals, which is also one of the great factors in the State's prosperity. We are boastful of the bright skies and the genial climate of California, but in the absence of a given amount of rain a dry season is too much to be dreaded by those who till the soil, rear the flocks or work the mines. A season of draught is a veritable calamity, of which many had an unfortunate experience during last season, when the crops furnished no grist to the farmer, or afforded no nutriment to his starving cattle. Long continued storms of winter have in them much of personal discomfort, and floods bring destruction to property upon limited areas, but the percentage of loss from such causes bears no proportion to the after gain to the State at large. Taking a retrospect of California seasons it may be stated as a fact that after every severe winter from the pioneer days down to the present time there invariably followed bounteous Summers that harvested richly in grain and gold, while those of dry winters just as invariably have brought short crops of both and made seasons of business depression and the retardation of material progress. The cheapest blessings of the Golden State are the rains and floods and weeping skies of winter, that bring in their train the sunshine of a real prosperity.

Governor Stoneman, of California, has sent the following telegram to the New York World: "Replying to your telegram on the question of a successor to the Vice President, and my opinion as to which Senator should be chosen and why? I have to say that if we cannot have a Democrat for acting Vice President the country will be safe if Edmunds is selected."

William E. Scott, of Erie, Pennsylvania, is said to be the richest man of the next House of Representatives. His wealth is represented at \$12,000,000. He was a page when Webster, Clay and Calhoun were still active at Washington.

When Congress meets the country will learn that there is not an iota of truth in the reports of great changes in the silver question on the part of southern and western representatives.

The Liberals are gaining in the English election.
